This 8 hour course will introduce the sworn law enforcement officer to fugitive operations. This course will expand on the skills used by law enforcement officers who are involved in the hunting and arresting of violent criminals, from the issuance of a warrant to their arrest and post arrest. We will emphasize on the methods and research techniques used to locate and apprehend wanted persons safely, quickly and efficiently. We will discuss in detail the unique resources available and tools used in fugitive operations. Areas of discussion will include:

- Compiling Of Information
- Organization Of Intelligence
- Case Work Ups
- Electronic Surveillance
- Social Media
- Research Tools
- LEO Networking
- Team Work
- Arrest Planning
- Consensual Tactical Knock And Talks & Case law
